PSHE in the EYFS at Brookside Primary School

The EYFS PSHE curriculum at Brookside Primary school

We want to teach children to...

Be part of our school community developing a strong awareness of the school rules- Ready, Respectful and Safe.

It is a paramount that children feel safe and secure and therefore we think carefully about what and how we want to teach PSHE.

- Show an understanding of their own feelings and those of others and begin to self regulate.
 To work towards goals. Children will be able to give focussed attention.
- Children will be excited and confident to try new activities. Children will learn about how to develop resilience. Children have a clear understanding of right and wrong and how to behave accordingly.
- Manage basic hygiene and personal care needs. .
- Form positive relationships. Showing sensitivity to their own needs and feelings and those of others. Learn together cooperatively.

How we teach PSHE in the EYFS at Brookside Primary School....

Personal, social and emotional development is a prime area for the EYFS and therefore is central to our practice. PSHE is promoted through routines and clear structure within the classrooms, to ensure children have a strong sense of belonging and feel safe. All adults in EYFS has a deep understanding of the importance of PSHE for young children and works sensitively to support nurture our youngest children. Relationships are nurtured and supported through independent learning and alongside adults and children in play. We use Jigsaw throughout the school, which offers us a mindful approach to PSHE.

Our rationale for our EYFS PSHE curriculum...

Some children on entering the EYFS need additional support with social skills, separating from carers, managing their own feelings, self-regulation and therefore more time is given to PSHE in the autumn term. Young children at Brookside need support to develop friendships, relationships, understanding their own feelings and those of others. We have chosen to use Jigsaw as a whole school approach to teach PSHE, as it has a clear progression across the school and we value the mindful approach (helping children to advance emotional awareness, concentration, focus and self regulation). It has a strong emphasis on emotional literacy, building resilience and nurturing mental and physical health. It fits in fully with our whole school ethos of Ready, Respectful and Safe.

We develop PSHE through....

Communication and Language

- 3 / 4 year olds: Be able to express a point of view and to debate when they disagree with an adult or friend, using words as well as actions.
- Can start a conversation with an adult or a friend and continue it for many turns.

Understanding of the World

- 3 / 4 year olds: Begin to make sense of their own life-story and family's history.
- Show interest in different occupations.
- Continue to develop positive attitudes about the differences between people.

Personal, Social Emotional Development

3 / 4 year olds: - Select and use activities and resources, with help when needed. This helps them to achieve a goal they have chosen or one which is suggested to them.

Physical Development

3 / 4 year olds: - Starting to eat independently and learning how to use a knife and fork. - Be increasingly independent as they get dressed and undressed. For Reception: - Use talk to help work out problems and organise thinking and activities, explain how things work and why they might happen.

- Develop social phrases.

ELG: C&L: Listening, attention and understanding:

- Hold conversation when engaged in backand-forth exchanges with their teachers and peers

ELG: C&L: Speaking: - Express their ideas and feelings about their experiences using full sentences, including use of past, present and future tenses and making use of conjunctions, with modelling and support from their teacher.

- Know that there are different countries in the world and talk about the differences they have experienced or seen in photos.

Reception: - Talk about members of their immediate family and community.

- Name and describe people who are familiar to them.
- Recognise that people have different beliefs and celebrate special times in different ways.

ELG: UTW: Past and Present: - Talk about the lives of people around them and their roles in society

- Develop their sense of responsibility and membership of a community.
- Become more outgoing with unfamiliar people, in the safe context of their setting. - Show more confidence in new social situations. -Play with one or more other children, extending and elaborating play ideas.
- Help to find solutions to conflicts and rivalries. For example, accepting that not everyone can be Spider-Man in the game, and suggesting other ideas. - Increasingly follow rules, understanding why they are important. - Do not always need an adult to remind them of a rule. -Develop appropriate ways of being assertive. - Talk with others to solve conflicts. - Talk about their feelings using words like 'happy', 'sad', 'angry' or 'worried'. - Begin to understand how others might be feeling. Reception: - See themselves as a valuable individual. - Build constructive and respectful relationships. - Express their feelings and consider the feelings of others. -Show resilience and perseverance in the face of challenge. - Identify and moderate their own feelings socially and emotionally. - Think about the perspectives of others. - Manage their own needs. ELG: PSED: Self Regulation: - Show an understanding of their own feelings and those of

example, putting coats on and doing up zips. - Be increasingly independent in meeting their own care needs, e.g. brushing teeth, using the toilet, washing and drying their hands thoroughly. - Make healthy choices about food, drink. activity and toothbrushing. Reception: - Know and talk about the different factors that support their overall health and wellbeing: regular physical activity, healthy eating

toothbrushing, sensible amounts of 'screen time', having a good sleep routine, being a safe pedestrian - Further develop the skills they need to manage the school day successfully: lining up and queuing, mealtimes, personal hygiene. ELG: PD: Gross Motor Skills - Negotiate space and obstacles safely, with consideration for themselves and others.

others, and begin to regulate their
behaviour accordingly Set and work
towards simple goals, being able to
wait for what they want and control
their immediate impulses when
appropriate Give focused attention
to what the teacher says, responding
appropriately even when engaged in
activity, and show an ability to follow
instructions involving several ideas or
actions.

By the end of the EYFS we would like children to....feel safe, secure, confident in their own selves and recognise the strengths in others. Be able to manage and regulate their own feelings. Be able to play and work cooperatively. Know who to speak to if they need help.

Jigsaw, the mindful approach to PSHE, is a progressive and spiral scheme of learning. In planning the lessons, Jigsaw PSHE ensures that learning from previous years is revisited and extended, adding new concepts, knowledge and skills, year on year as appropriate. The table below draws out the **spiral** knowledge and skills progression within all six Puzzles (units of work) including the key vocabulary used in each year group; explicit links to the DfE statutory Relationships and Health Education outcomes have been made in each Puzzle.

INTENT: Jigsaw holds children at its heart, and its cohesive vision helps children understand and value how they fit into and contribute to the world. With strong emphasis on emotional literacy, building resilience and nurturing mental and physical health, Jigsaw 3-11 properly equips schools to deliver engaging and relevant PSHE within a whole-school approach. Jigsaw lessons also include mindfulness allowing children to advance their emotional awareness, concentration, focus and self-regulation.

IMPLEMENTATION: Jigsaw 3-11 offers a comprehensive programme for Primary PSHE, including statutory Relationships and Health Education, in a spiral, progressive and fully planned scheme of work, giving children relevant learning experiences to help them navigate their world and to develop positive relationships with themselves and others.

IMPACT: This can be established through assessment identified in the key learning.

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			
overview Being Me in My World	In this Puzzle (unit), the children learn about how they have similarities and differences from their friends and how that is OK. They begin working on recognising and managing their feelings, identifying different ones and the causes these can have. The children learn about working with others and why it is good to be kind and use gentle hands. They discuss children's rights, especially linked to the right to learn and the right to play. The children learn what it means to be responsible.	In this Puzzle (unit), the children are introduced to their Jigsaw Journals and discuss their Jigsaw Charter. As part of this, they discuss rights and responsibilities, and choices and consequences. The children learn about being special and how to make everyone feel safe in their class as well as recognising their own safety.	In this Puzzle (unit), the children discuss their hopes and fears for the year ahead – they talk about feeling worried and recognising when they should ask for help and who to ask. They learn about rights and responsibilities; how to work collaboratively, how to listen to each other and how to make their classroom a safe and fair place. The children learn about choices and the consequences of making different choices, set up their Jigsaw Journals and make the Jigsaw Charter.	In this Puzzle (unit), the children learn to recognise their self-worth and identify positive things about themselves and their achievements. They discuss new challenges and how to face them with appropriate positivity. The children learn about the need for rules and how these relate to rights and responsibilities. They explore choices and consequences, working collaboratively and seeing things from other people's points of view. The children learn about different feelings and the ability to recognise these feelings in themselves and others. They set up their Jigsaw Journals and establish the Jigsaw Charter.	In this Puzzle (unit), the children explore being part of a team. They talk about attitudes and actions and their effects on the whole class. The children learn about their school and its community, who all the different people are and what their roles are. They discuss democracy and link this to their own School Council, what its purpose is and how it works. The children learn about group work, the different roles people can have, how to make positive contributions, how to make collective decisions and how to deal with conflict. They also learn about considering other people's feelings. They refresh their Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit), the children think and plan for the year ahead, goals they could set for themselves as well as the challenges they may face. They explore their rights and responsibilities as a member of their class, school, wider community and the country they live in. The children learn about their own behaviour and its impact on a group as well as choices, rewards, consequences and the feelings associated with each. They also learn about democracy, how it benefits the school and how they can contribute towards it. They revisit the Jigsaw Charter and set up their Jigsaw Journals.	In this Puzzle (unit), the children discuss their year ahead, they learnt to set goals and discuss their fears and worries about the future. The children learn about the United Nations Convention on the Rights of the Child and that these are not met for all children worldwide. They discuss their choices and actions and how these can have farreaching effects, locally and globally. The children learn about their own behaviour and how their choices can result in rewards and consequences and how they feel about this. They explore an individual's behaviour and the impact it can have on a group. They learn talk about democracy, how it benefits the school and how they can contribute towards it. They establish the Jigsaw Charter and set up their Jigsaw Journals.			

Taught knowledge (Key objectives are in bold)	 Know they have a right to learn and play, safely and happily Know that some people are different from themselves 	 Understand their own rights and responsibilities with their classroom Understand that their choices have consequences 	 Understand the rights and responsibilities of class members Know about rewards and consequences and that these stem from choices 	 Know that the school has a shared set of values Know why rules are needed and how these relate to choices and consequences 	 Know their place in the school community Know what democracy is (applied to pupil voice in school) 	 Understand how democracy and having a voice benefits the school community Understand how to contribute towards the democratic process 	 Know about children's universal rights (United Nations Convention on the Rights of the Child) Know about the lives of children in other parts of the world
	Know that hands can be used kindly and unkindly	 Understand that their views are important 	 Know that it is important to listen to other people 	 Know that actions can affect others' feelings 	 Know how groups work together to reach a consensus 	 Understand the rights and responsibilities associated with being a citizen in the wider community and 	 Know that personal choices can affect others locally and globally
	Know special things about themselves	 Understand the rights and responsibilities of a member of a class 	 Understand that their own views are valuable 	 Know that others may hold different views 	 Know that having a voice and democracy benefits the school community 	 Know how to face new challenges positively 	 Know how to set goals for the year ahead
	Know how happiness and sadness can be expressed		 Know that positive choices impact positively on self- learning and the 	Understand that they are important	Know how individual attitudes and actions make a difference to	 Understand how to set personal goals 	Understand what fears and worries areUnderstand that their
	Know that being kind is good		 Identifying hopes and fears for the year 	 Know what a personal goal is Understanding what a challenge is 	 Know about the different roles in the 	 Know how an individual's behaviour can affect a group and the consequences of this 	own choices result in different consequences and rewards
			ahead	a chahenge is	 Know that their own actions affect themselves and 		 Understand how democracy and having a voice benefits the school community
					others		Understand how to contribute towards the democratic process

Social and Emotional skills (Key objectives are in bold)	 Identify feelings associated with belonging Skills to play cooperatively with others Be able to consider others' feelings Identify feelings of happiness and sadness Be responsible in the setting 	 Understand that they are safe in their class Identifying helpful behaviours to make the class a safe place Understand that they have choices Understanding that they are special Identify what it's like to feel proud of an achievement Recognise feelings associated with positive and negative consequences 	 Know how to make their class a safe and fair place Show good listening skills Be able to work cooperatively Recognise own feelings and know when and where to get help Recognise the feeling of being worried 	 Make other people feel valued Develop compassion and empathy for others Be able to work collaboratively Recognise self-worth Identify personal strengths Be able to set a personal goal Recognise feelings of happiness, sadness, worry and fear in themselves and others 	 Identify the feelings associated with being included or excluded Be able to take on a role in a group discussion / task and contribute to the overall outcome Know how to regulate my emotions Can make others feel cared for and welcome Recognise the feelings of being motivated or unmotivated Can make others feel valued and included Understand why the school community benefits from a Learning Charter Be able to help friends make positive choices 	 Empathy for people whose lives are different from their own Consider their own actions and the effect they have on themselves and others Be able to work as part of a group, listening and contributing effectively Be able to identify what they value most about school Identify hopes for the school year Understand why the school community benefits from a Learning Charter Be able to help friends make positive choices Know how to regulate my emotions 	 Know own wants and needs Be able to compare their life with the lives of those less fortunate Demonstrate empathy and understanding towards others Can demonstrate attributes of a positive role-model Can take positive action to help others Be able to contribute towards a group task Know what effective group work is Know how to regulate my emotions Be able to make others feel welcomed and valued

DfE Statutory Relationships & Health Education outcomes	PSED ELG – SELF-REGULATION Set and work towards simple goals, being able to wait for what they want and control their immediate impulses when appropriate. Give focused attention to what the teacher says, responding appropriately even when engaged in activity, and show an ability to follow instructions involving several ideas or actions. PSED ELG: MANAGING SELF Be confident to try new activities and show independence, resilience and perseverance in the face of challenge. PSED – ELG: BUILDING RELATIONSHIPS Work and play co-operatively and take turns with others.	Respectful relationships (R12) the importance of respectin beliefs (R13) practical steps they can take (R14) the conventions of courtesy (R15) the importance of self-respection (R16) that in school and in wider stypes of bullying (including cybert (R19) the importance of permission (R19) the importance of permission (R30) how to ask for advice or help the property of the property	At 12) the importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or eliefs 13) practical steps they can take in a range of different contexts to improve or support respectful relationships 14) the conventions of courtesy and manners 15) the importance of self-respect and how this links to their own happiness 16) that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority (R17) about different press of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help 19) the importance of permission seeking and giving in relationships with friends, peers and adults. 10) the importance of permission seeking and giving in relationships with friends, peers and adults. 11) the importance of permission seeking and giving in relationships with friends, peers and adults. 12) the importance of permission seeking and giving in relationships with friends, peers and adults. 13) how to ask for advice or help for themselves or others, and to keep trying until they are heard. 14) the importance of permission seeking and primary, pupils should know: 15) The importance of permission seeking and primary, pupils should know: 16) The importance of permission seeking and primary, pupils should know: 17) Hand the importance of permission seeking and primary are permission seeking and								
Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6				
overview Celebrating Difference	In this Puzzle, the children consider challenges and facing up to them. They discuss not giving up and trying until they have achieved their goal. The children are encouraged to think about jobs that they might like to have when they are older and are taught to associate what they learn now with being able to have the job they want. They also talk about achieving goals and the feelings linked to this.	In this Puzzle, the children talk about setting simple goals, how to achieve them as well as overcoming difficulties when they try. The children learn to recognise the feelings associated with facing obstacles to achieving their goals as well as when they achieve them. They discuss partner working and how to do this well.	In this Puzzle, the children explore setting realistic goals and how they can achieve them. They discuss perseverance when they find things difficult as well as recognising their strengths as a learner. The children consider group work and reflect on with whom they work well and with whom they don't. They also reflect on sharing success with other people.	In this Puzzle, the children look at examples of people who have overcome challenges to achieve success and discuss what they can learn from these stories. The children identify their own dreams and ambitions and discuss how it will feel when they achieve them. They discuss facing learning challenges and identify their own strategies for overcoming these. The children consider obstacles that might stop them from achieving their goals and how to overcome these. They reflect on their progress and successes and identify what they could do better next time.	In this Puzzle, the children consider their hopes and dreams. They discuss how it feels when dreams don't come true and how to cope with/overcome feelings of disappointment. The children discuss making new plans and setting new goals even if they have been disappointed. The class explore group work and overcoming challenges together. They reflect on their successes and the feelings associated with overcoming a challenge.	In this Puzzle, the children share their dreams and goals and how they might need money to help them achieve them. They consider jobs that people they know do, they look at the fact that some jobs pay more money than others and reflect on what types of jobs they might like to do when they are older. The children look as the similarities and differences between themselves (and their dreams and goals) and someone from a different culture.	In this Puzzle, the children share their own strengths and further stretching themselves by setting challenging and realistic goals. They discuss the learning steps they will need to take as well as talking about how to stay motivated. The children reflect on various global issues and explore places where people may be suffering or living in difficult situations; whilst doing this, they reflect on their own emotions linked to this learning. The children also discover what they think their classmates like and admire about them, as well as working on giving others praise and compliments.				

Taught knowledge	Know what a challenge is	Know how to set simple goals	Know how to choose a realistic goal and think about how to achieve it	Know that they are responsible for their own learning	Know how to make a new plan and set new goals even if they have	Know about a range of jobs that are carried out by people I know	 Know their own learning strengths
(Key objectives are in bold)	 Know that it is important to keep trying Know what a goal is Know how to set goals and work towards them 	 Know how to achieve a goal Know how to identify obstacles which make achieving their goals difficult and work out how to overcome them 	 Know that it is important to persevere Know how to recognise what working together well looks like 	 Know what an obstacle is and how they can hinder achievement Know how to take steps to overcome obstacles 	 Know how to work as part of a successful group Know how to share in the success of a group 	 Know the types of job they might like to do when they are older Know that young people from different cultures may have different dreams and goals 	 Know what their classmates like and admire about them Know a variety of problems that the world is facing
	 Know which words are kind Know some jobs that they might like to do when they are older Know that they must work hard now in order to be able to achieve the job they want when they are older Know when they have achieved a goal 	 Know when a goal has been achieved Know how to work well with a partner Know that tackling a challenge can stretch their learning 	 Know what good group-working looks like Know how to share success with other people 	 Know what dreams and ambitions are important to them Know about specific people who have overcome difficult challenges to achieve success Know how they can best overcome learning challenges Know what their own strengths are as a learner Know how to evaluate their own learning progress and identify how it can be better next time 	 Know what their own hopes and dreams are Know that hopes and dreams don't always come true Know that reflecting on positive and happy experiences can help them to counteract disappointment Know how to work out the steps they need to take to achieve a goal 	 Know that they will need money to help them to achieve some of their dreams Know that different jobs pay more money than others Know that communicating with someone from a different culture means that they can learn from them and vice versa Know ways that they can support young people in their own culture and abroad 	 Know some ways in which they could work with others to make the world a better place Know what the learning steps are they need to take to achieve their goal Know how to set realistic and challenging goals

Social and Emotional skills (Key objectives are in bold)	 Understand that challenges can be difficult Resilience Recognise some of the feelings linked to perseverance Recognise how kind words can encourage people Talk about a time that they kept on trying and achieved a goal Be ambitious Feel proud Celebrate success 	 Recognise things that they do well Explain how they learn best Recognise their own feelings when faced with a challenge/obstacle Recognise how they feel when they overcome a challenge/obstacle Celebrate an achievement with a friend Can store feelings of success so that they can be used in the future 	 Recognise how working with others can be helpful Be able to work effectively with a partner Be able to choose a partner with whom they work well Be able to work as part of a group Be able to describe their own achievements and the feelings linked to this Recognise their own strengths as a learner Recognise how it feels to be part of a group that succeeds and store this feeling 	 Can break down a goal into small steps Can manage feelings of frustration linked to facing obstacles Imagine how it will feel when they achieve their dream/ambition Recognise other people's achievements in overcoming difficulties Recognise how other people can help them to achieve their goals Can share their success with others Can store feelings of success (in their internal treasure chest) to be used at another time 	 Have a positive attitude Can identify the feeling of disappointment Be able to cope with disappointment Can identify what resilience is Can identify a time when they have felt disappointed Can talk about their hopes and dreams and the feelings associated with these Help others to cope with disappointment Enjoy being part of a group challenge Can share their success with others Can store feelings of success (in their internal treasure chest) to be used at another time 	 Verbalise what they would like their life to be like when they are grown up Appreciate the contributions made by people in different jobs Reflect on the differences between their own learning goals and those of someone from a different culture Appreciate the differences between themselves and someone from a different culture Understand why they are motivated to make a positive contribution to supporting others Appreciate the opportunities learning and education can give them 	 Understand why it is important to stretch the boundaries of their current learning Be able to give praise and compliments to other people when they recognise that person's achievements Empathise with people who are suffering or living in difficult situations Set success criteria so that they know when they have achieved their goal Recognise the emotions they experience when they consider people in the world who are suffering or living in difficult circumstances

(H17) where and how to report concerns and get support with issues online.

Physical health and fitness

- (H18) the characteristics and mental and physical benefits of an active lifestyle
- (H19) the importance of building regular exercise into daily and weekly routines and how to achieve this; for example, walking or cycling to school, a daily active mile or other forms of regular, vigorous exercise
- (H20) the risks associated with an inactive lifestyle (including obesity)
- (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.

Healthy eating

- (H22) what constitutes a healthy diet (including understanding calories and other nutritional content)
- (H23) the principles of planning and preparing a range of healthy meals
- (H24) the characteristics of a poor diet and risks associated with unhealthy eating (including, for example, obesity and tooth decay) and other behaviours (e.g. the impact of alcohol on diet or health).

Drugs, alcohol

(H25) the facts about legal and illegal harmful substances and associated risks, including smoking, alcohol use and drug-taking.

Health and prevention

- (H26) how to recognise early signs of physical illness, such as weight loss, or unexplained changes to the body
- (H28) the importance of sufficient good quality sleep for good health and that a lack of sleep can affect weight, mood and ability to learn
- (H30) about personal hygiene and germs including bacteria, viruses, how they are spread and treated, and the importance of handwashing
- (H31) the facts and science relating to allergies, immunisation and vaccination.

Basic first aid

- (H32) how to make a clear and efficient call to emergency services if necessary
- (H33) concepts of basic first-aid, for example dealing with common injuries, including head injuries.

Puzzle EYFS Year 1 Year 2	Year 3 Year 3	Year 5	Year 6
In this Puzzle, children learn about their bodies: the names of some key parts as well as how to stay healthy. They talk about food and that some foods are healthier than others. They discuss the importance of sleep and what they can do to help themselves get to sleep. They talk about hand washing and why it is important. The class also discuss' stranger danger' and what they should do if approached by someone they don't know. In this Puzzle, the children learn about healthy food; they talk about having a healthy relationship with food and making healthy choices. The children consider what makes them feel relaxed and stressed. They children learn about road safety, and about people who can help them to stay safe. In this Puzzle, the children learn about healthy food; they talk about having a healthy relationship with food and making healthy choices. The children consider what makes them feel relaxed and stressed. They children make healthy snacks and discuss why they are good for their bodies. In this Puzzle, the children learn about healthy food; they talk about having a healthy relationship with food and making healthy choices. The children consider what makes them feel relaxed and stressed. They children make healthy snacks and discuss why they are good for their bodies.	this Puzzle, the children learn out the importance of ercise and how it helps your dy to stay healthy. They also rn about their heart and egs, what they do and how ey are very important. The ldren discover facts about ories, fat and sugar; they cuss what each of these are d how the amount they each of the amount they ensume can affect their ealth. The children learn about ferent types of drugs, the ess you take to make you In this Puzzle at the friends they are part formed, how and followers they play. The on their friend strength out they are part formed, how and followers they play. The on their friend strength out and followers they are part formed, how and followers they play. The on their friend strength out and followers they are part formed, how and followers they play. The on their friends and followers they are part formed, how and followers they play. The on their friends and followers they play	le, the children look dship groups that rt of, how they are with they have leaders are and what role the children reflect endships, how exple make them sich friends they toost. The children bout smoking and then reasons why people or smoke. Finally, about peer pressure deal with it investigate the risks associated with smoking and how it affects the lungs, liver and heart. Likewise, they learn about the risks associated with alcohol misuse. They are taught a range of basic first aid and emergency procedures (including the recovery position) and learn how to contact the emergency services when needed. The children investigate how body types are portrayed in the media, social media and celebrity culture. They also learn about eating disorders and people's relationships with food and how this can be linked to negative body image.	In this Puzzle, the children discuss taking responsibility for their own physical and emotional health and the choices linked to this. They learn about different types of drugs and the effects these can have on people's bodies. The children learn about exploitation as well as gang culture and the associated risks therin. They also learn about mental health/illness and that people have different attitudes towards this. They learn to recognise the triggers for and feelings of being stressed and that there are strategies they can use

Taught knowledge	Know what the word 'healthy' means	Know the difference between being healthy and unhealthy	Know what their body needs to stay healthy	Know how exercise affects their bodies	Know that there are leaders and followers in	Know basic emergency procedures, including the	Know how to take responsibility for their own health
_	 'healthy' means Know some things that they need to do to keep healthy 						
					reasons some people drink alcohol		

Social and Emotional skills (Key objectives are in bold)	Can explain what they need to do to stay healthy Recognise how exercise makes them feel Can give examples of healthy food Can explain what to do if a stranger approaches them Can explain how they might feel if they don't get enough sleep Recognise how different foods can make them feel	 Keep themselves safe Recognise how being healthy helps them to feel happy Recognise ways to look after themselves if they feel poorly Recognise when they feel frightened and know how to ask for help Feel good about themselves when they make healthy choices Realise that they are special 	 Feel positive about caring for their bodies and keeping it healthy Have a healthy relationship with food Desire to make healthy lifestyle choices Identify when a feeling is weak and when a feeling is strong Express how it feels to share healthy food with their friends 	 Respect their own bodies and appreciate what they do Can take responsibility for keeping themselves and others safe Identify how they feel about drugs Can express how being anxious or scared feels Able to set themselves a fitness challenge Recognise what it feels like to make a healthy choice 	 Can identify the feelings that they have about their friends and different friendship groups Recognise negative feelings in peer pressure situations Can identify the feelings of anxiety and fear associated with peer pressure Can tap into their inner strength and knowhow to be assertive Recognise how different people and groups they interact with impact on them Identify which people they most want to be friends with 	 Respect and value their own bodies Can reflect on their own body image and know how important it is that this is positive Recognise strategies for resisting pressure Can identify ways to keep themselves calm in an emergency Can make informed decisions about whether or not they choose to smoke when they are older Can make informed decisions about whether they choose to drink alcohol when they are older Accept and respect themselves for who they are Be motivated to keep themselves healthy and happy 	 Are motivated to care for their own physical and emotional health Suggest strategies someone could use to avoid being pressured Can use different strategies to manage stress and pressure Are motivated to find ways to be happy and cope with life's situations without using drugs Identify ways that someone who is being exploited could help themselves Recognise that people have different attitudes towards mental health/illness

Physical Health and Well-Being – By end of primary, pupils should know:

Mental well-being

- (H1) that mental well-being is a normal part of daily life, in the same way as physical health
- (H2) that there is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations
- (H3) how to recognise and talk about their emotions, including having a varied vocabulary of words to use when talking about their own and others' feelings
- (H4) how to judge whether what they are feeling and how they are behaving is appropriate and proportionate
- (H5) the benefits of physical exercise, time outdoors, community participation, voluntary and service-based activity on mental well-being and happiness
- (H6) simple self-care techniques, including the importance of rest, time spent with friends and family and the benefits of hobbies and interests
- (H7) isolation and loneliness can affect children and that it is very important for children to discuss their feelings with an adult and seek support
- (H8) that bullying (including cyberbullying) has a negative and often lasting impact on mental well-being
- (H9) where and how to seek support (including recognising the triggers for seeking support), including whom in school they should speak to if they are worried about their own or someone else's mental well-being or ability to control their emotions (including issues arising online)
- (H10) it is common for people to experience mental ill health. For many people who do, the problems can be resolved if the right support is made available, especially if accessed early enough.

Internet safety and harms

- (H11) that for most people the internet is an integral part of life and has many benefits
- (H12) about the benefits of rationing time spent online, the risks of excessive time spent on electronic devices and the impact of positive and negative content online on their own and others' mental and physical well-being
- (H13) how to consider the effect of their online actions on others and know how to recognise and display respectful behaviour online and the importance of keeping personal information private
- (H14) why social media, some computer games and online gaming, for example, are age restricted
- (H15) that the internet can also be a negative place where online abuse, trolling, bullying and harassment can take place, which can have a negative impact on mental health

Year 3

- (H16) how to be a discerning consumer of information online including understanding that information, including that from search engines, is ranked, selected and targeted
- (H17) where and how to report concerns and get support with issues online.

Physical health and fitness

- (H18) the characteristics and mental and physical benefits of an active lifestyle
- (H21) how and when to seek support including which adults to speak to in school if they are worried about their health.

Puzzie	
Overview	
Relationships	

D 1.

Children are introduced to the key relationships in their lives. They learn about families and the different roles people can have in a family. They explore the friendships they have and what makes a good friend. They are introduced to simple strategies they can use to mend friendships. The children also practise Jigsaw's Calm Me and how they can use this when feeling upset or angry.

EYFS

Year 1 Children's breadth of relationships is widened to include people they may find in their school community. They consider their own significant relationships (family, friends and school community) and why these are special and important. As part of the lessons on healthy and safe relationships, children learn that touch can be used in kind and unkind ways. This supports later work on safeguarding. Pupils also consider their own personal attributes as a friend, family member and as part of a community, and are encouraged to celebrate these.

Learning about family relationships widens to include roles and responsibilities in a family and the importance of cooperation, appreciation and trust. Friendships are also revisited with a focus on falling out and mending friendships. This becomes more formalised and the children learn and practise two different strategies for conflict resolution (Solve it together and Mending Friendships). Children consider the importance of trust in relationships and what this feels like. They also learn about two types of secret, and why 'worry secrets' should always be shared with a trusted adult. Children reflect upon different types of physical contact in relationships, which are acceptable and which ones are not. They practise strategies for being assertive when someone is hurting them or being unkind. The children also

Year 2

In this Puzzle, children revisit family relationships and identify the different expectations and roles that exist within the family home. They identify why stereotypes can be unfair and may not be accurate, e.g. Mum is the carer, Dad goes to work. They also look at careers and why stereotypes can be unfair in this context. They learn that families should be founded on love, respect, appreciation, trust and co-operation. Children are reminded about the Solve it together technique for negotiating conflict situations and the concept of a win-win outcome is introduced.

Online relationships through gaming and apps are explored and children are introduced to some rules for staying safe online. Children also learn that they are part of a global community and they are

Learning in this year group starts focussing on the emotional aspects of relationships and friendships. With this in mind, children explore jealousy and loss/ bereavement. They identify the emotions associated with these relationship changes, the possible reasons for the change and strategies for coping with the change. The children learn that change is a natural in relationships and they will experience (or may have already experienced) some of these changes. Children revisit skills of negotiation particularly to help manage a change in a relationship. They also learn that sometimes it is better if relationships end, especially if they are causing negative feelings or they are unsafe. Children are taught that

Year 4

Children learn about the importance of self-esteem and ways this can be boosted. This is important in an online context as well as offline, as mental health can be damaged by excessive comparison with others. This leads onto a series of lessons that allow the children to investigate and reflect upon a variety of positive and negative online/social media contexts including gaming and social networking. They learn about agelimits and also age-appropriateness. Within these lessons, children are taught the SMARRT internet safety rules and they apply these in different situations. Risk, pressure and influences are revisited with a focus on the physical and emotional aspects of identifying when something online or in social media feels uncomfortable or unsafe. Children are taught about grooming and how people online can pretend to be whoever they want. Rights, responsibilities and respect are revisited with an angle on technology

Year 5

In this Puzzle, the children learn more about mental health and how to take care of their own mental well-being. They explore the grief cycle and its various stages, and discuss the different causes of grief and loss. The children learn about people who can try to control them or have power over them. They investigate online safety, learning how to judge if something is safe and helpful, as well as talking about communicating with friends and family in a positive and safe way.

Year 6

	ti	earn about people who can help hem if they are worried or cared.	connected to others they don't know in many ways, e.g. through global trade. They investigate the wants and needs of other children who are less fortunate and compare these with their own. Children's universal rights are also revisited.	relationship endings can be amicable.	use. Screen time is also discussed and children find ways to reduce their own screen time. This Puzzle aims to help children to be more discerning when viewing anything online or on social media.	
Taught knowledge (Key objectives are in bold) • Know that different people in a family have different responsibilities (jobs) • Know some of the characteristics of healthy and safe friendships • Know that friends sometimes fall out • Know some ways to mend a friendship • Know that unkind words can never be taken back and they can hurt • Know how to use Jigsaw's Calm Me to help when feeling angry • Know some reasons why others get angry	 Know that everyone's family is different Know that families are founded on belonging, love and care Know that physical contact can be used as a greeting Know how to make a friend Know who to ask for help in the school community Know that there are lots of different types of families Know the characteristics of healthy and safe friends Know about the different people in the school community and how they help 	 Know that there are lots of forms of physical contact within a family Know how to stay stop if someone is hurting them Know there are good secrets and worry secrets and why it is important to share worry secrets Know what trust is Know that everyone's family is different Know that families function well when there is trust, respect, care, love and co-operation Know some reasons why friends have conflicts Know that friendships have ups and downs and sometimes change with time Know how to use the Mending Friendships or Solve it together 	 Know that different family members carry out different roles or have different responsibilities within the family Know some of the skills of friendship, e.g. taking turns, being a good listener Know some strategies for keeping themselves safe online Know that they and all children have rights (UNCRC) Know that gender stereotypes can be unfair, e.g. Mum is always the carer, Dad always goes to work etc Know how some of the actions and work of people around the world help and influence my life Know the lives of 	 Know some reasons why people feel jealousy Know that loss is a normal part of relationships Know that negative feelings are a normal part of loss Know that sometimes it is better for a friendship/relationship to end if it is causing negative feelings or is unsafe Know that jealousy can be damaging to relationships Know that memories can support us when we lose a special person or animal 	 Know that there are rights and responsibilities in an online community or social network Know that there are rights and responsibilities when playing a game online Know that too much screen time isn't healthy Know how to stay safe when using technology to communicate with friends Know that a personality is made up of many different characteristics, qualities and attributes Know that belonging to an online community can have positive and negative consequences 	 Know that it is important to take care of their own mental health Know ways that they can take care of their own mental health Know the stages of grief and that there are different types of loss that cause people to grieve Know that sometimes people can try to gain power or control them Know some of the dangers of being 'online' Know how to use technology safely and positively to communicate with their friends and family

Social and Emotional skills (Key objectives are in bold)	 Can identify what jobs they do in their family and those carried out by parents/carers and siblings Can suggest ways to make a friend or help someone who is lonely Can use different ways to mend a friendship Can recognise what being angry feels like Can use Calm Me when angry or upset 	 Can express how it feels to be part of a family and to care for family members Can say what being a good friend means Can identify forms of physical contact they prefer Can say no when they receive a touch they don't like Can show skills of friendship Can praise themselves and others Can recognise some of their personal qualities Can say why they appreciate a special relationship 	 Can identify the different roles and responsibilities in their family Can recognise the value that families can bring Can recognise and talk about the types of physical contact that is acceptable or unacceptable Can identify the negative feelings associated with keeping a worry secret Can identify who they trust in their own relationships Can use positive problem-solving techniques (Mending Friendships or Solve it together) to resolve a friendship conflict Can identify the feelings associated with trust Can give and receive compliments Can say who they would go to for help if they 	 Can identify the responsibilities they have within their family Know how to access help if they are concerned about anything on social media or the internet Can empathise with people from other countries who may not have a fair job or are less fortunate Understand that they are connected to the global community in many different ways Can use Solve it together in a conflict scenario and find a win-win outcome Can identify similarities in children's rights around the world Can identify their own wants and needs and how these may be similar or different from other children in school and the global community 	 Can identify feelings and emotions that accompany jealousy Can suggest positive strategies for managing jealousy Can identify people who are special to them and express why Can identify the feelings and emotions that accompany loss Can suggest strategies for managing loss Can tell you about someone they no longer see Can suggest ways to manage relationship changes including how to negotiate 	 Can suggest strategies for building self-esteem of themselves and others Can identify when an online community/social media group feels risky, uncomfortable, or unsafe Can suggest strategies for staying safe online/ social media Can say how to report unsafe online/social network activity Can identify when an online game is safe or unsafe Can suggest ways to monitor and reduce screen time Can suggest strategies for managing unhelpful pressures online or in social networks 	 Recognise that people can get problems with their mental health and that it is nothing to be ashamed of Can help themselves and others when worried about a mental health problem Recognise when they are feeling grief and have strategies to manage them Demonstrate ways they could stand up for themselves and their friends in situations where others are trying to gain power or control Can resist pressure to do something online that might hurt themselves or others Can take responsibility for their own safety and wellbeing

Puzzle	EYFS	Year 1	Year 2	Year 3	Year 4	Year 5	Year 6			

Overview Changing Me

Children are encouraged to think about how they have changed from being a baby and what may change for them in the future. They consolidate the names and functions of some of the main parts of the body and discuss how these have changed. They learn that our bodies change in lots of different ways as we get older. Children understand that change can bring about positive and negative feelings, and that sharing these can help. They also consider the role that memories can have in managing change.

Children are introduced to life cycles, e.g. that of a frog and identify the different stages. They compare this with a human life cycle and look at simple changes from baby to adult, e.g. getting taller, learning to walk, etc. They discuss how they have changed so far and that people grow up at different rates. As part of a school's safeguarding duty, pupils are taught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicles, vulva). They are also taught that nobody has the right to hurt these parts of the body. Change is discussed as a natural and normal part of getting older which can bring about happy and sad feelings. Children practise a range of skills to help manage their feelings and learn how to access help if they are worried about change, or if someone is hurting them.

In this Puzzle, children compare different life cycles in nature, including that of humans. They reflect on the changes that occur (not including puberty) between baby, toddler, child, teenager, adult and old age. Within this, children also discuss how independence, freedoms and responsibility can increase with age. As part of a school's safeguarding duty, pupils are retaught the correct words for private parts of the body (those kept private by underwear: vagina, anus, penis, testicle, vulva). They are also reminded that nobody has the right to hurt these parts of the body, including a lesson on inappropriate touch and assertiveness. Children practise a range of strategies for managing feelings and emotions. They are also taught where they can get help if worried or frightened. Change is taught as a natural and normal part of growing up and the range of emotions that can occur with change are explored and discussed.

This Puzzle begins learning about babies and what they need to grow and develop including parenting. Children are taught that it is usually the female that carries the baby in nature. This leads onto lessons where puberty is introduced. Children first look at the outside body changes in males and females. They learn that puberty is a natural part of growing up and that it is a process for getting their bodies ready to make a baby when grown-up. Inside body changes are also taught. Children learn that females have eggs (ova) in their ovaries and these are released monthly. If unfertilised by a male's sperm, it passes out of the body as a period. Sexual intercourse and the birth of the baby are not taught in this year group. Children discuss how they feel about puberty and growing up and there are opportunities for them to seek reassurance if anything is worrying them.

In this Puzzle, bodily changes at puberty are revisited with some additional vocabulary, particularly around menstruation. Sanitary health is taught, including introducing pupils to different sanitary and personal hygiene products. Conception and sexual intercourse are introduced in simple terms so the children understand that a baby is formed by the joining of an ovum and sperm. They also learn that the ovum and sperm carry genetic information that carry personal characteristics. The Puzzle ends by looking at the feelings associated with change and how to manage these. Children are introduced to Jigsaw's Circle of change model as a strategy for managing future changes.

In this Puzzle, the children revisit self-esteem, self-image and body image. They learn that we all have perceptions about ourselves and others, and these may be right or wrong. They also reflect on how social media and the media can promote unhelpful comparison and how to manage this. Puberty is revisited in further detail, explaining bodily changes in males and females. Sexual intercourse is explained in slightly more detail than in the previous year. Children are encouraged to ask questions and seek clarification about anything they don't understand. Further details about pregnancy are introduced including some facts about the development of the foetus and some simple explanation about alternative ways of conception, e.g. IVF. Children learn that having a baby is a personal choice. Details of contraceptive options and methods are not taught as this is not ageappropriate. Reasons why people choose to be in a romantic relationship and choose to have a baby are also explored. Children look at what becoming a teenager means for them with an increase in freedom, rights and responsibilities. They also consider the perceptions that surround teenagers and reflect whether they are always accurate, e.g. teenagers are always moody; all teenagers have a boyfriend/girlfriend, etc.

In this Puzzle, the children learn about puberty in boys and girls and the changes that will happen; they reflect on how they feel about these changes. The children also learn about childbirth and the stages of development of a baby, starting at conception. They explore what it means to be being physically attracted to someone and the effect this can have upon the relationship. They learn about different relationships and the importance of mutual respect and not pressuring/being pressured into doing something that they don't want to. The children also learn about self-esteem, why it is important and ways to develop it. Finally, they look at the transition to secondary school (or next class) and what they are looking forward to/are worried about and how they can prepare themselves mentally.

	e Can identify positive memories from the past year in school/home	Can express why they enjoy learning	 Can appreciate that changes will happen and that some can be controlled and others not Be able to express how they feel about changes Show appreciation for people who are older Can recognise the independence and responsibilities they have now compared to being a baby or toddler Can say what greater responsibilities and freedoms they may have in the future Can say what they are looking forward to in the next year 	 Can identify stereotypical family roles and challenge these ideas, e.g. it may not always be Mum who does the laundry Can express how they feel about babies Can describe the emotions that a new baby can bring to a family Can identify changes they are looking forward to in the next year 	 Can express how they feel about having children when they are grown up Can say who they can talk to about puberty if they are worried Can apply the circle of change model to themselves to have strategies for managing change 	 Can ask questions about puberty to seek clarification Can express how they feel about having a romantic relationship when they are an adult Can express how they feel about having children when they are an adult Can express how they feel about becoming a teenager Can say who they can talk to if concerned about puberty or becoming a teenager/adult 	 into doing something that they don't want to Recognise how they feel when they reflect on the development and birth of a baby Can celebrate what they like about their own and others' self-image and body image Use strategies to prepare themselves emotionally for the transition (changes) to secondary school

SMSC Links: Every Jigsaw lesson from Early Years to upper primary offers opportunities for children's **spiritual, moral, social and cultural (SMSC) development**, and this is clearly mapped and balanced across each year group. Likewise, Jigsaw is designed to provide structured opportunities in every lesson to practise **and enhance the five skills associated with the emotional literacy (self-awareness, social skills, empathy, motivation and managing feelings)**. At Jigsaw, we believe that these opportunities are vital for children's development, their understanding of themselves and others and in increasing their capacity to learn.

British Values: Jigsaw PSHE 3-11 supports the **British Values** of Democracy, Rule of Law, Individual Liberty, Mutual Respect and Tolerance of those of different faiths and beliefs. It has been mapped lesson by lesson against the British Values agenda.
